Certification Registry

The first step in keeping a baby safe is careful selection of juvenile products. To help with your decisions, JPMA has developed a unique certification program and seal that has been guiding parents and caregivers for more than 30 years. Today you can purchase more than 2,000 products that bear the distinctive JPMA seal, visibly demonstrating the manufacturer's commitment to safety.

Manufacturers who participate in a product category are required to have all of their models tested and pass the standard. Purchasing a manufacturer's product listed in one of the following categories guarantees that the product is JPMA Certified.
